

30 May 2025, Friday		
TIME	HALL A	HALL B
08:30-09:30	Echocardiography in HFREF Chairpersons: Dr Masood Ahmet, Dr Hatem Soliman 1) Evaluation of systolic function/or the role of imaging in heart failure in the current era (Based on the current guidelines - Dr PC Manoria 2) The role of GLS in HFREF - Dr Krassimira Hristova 3) Echo assessment of congestion - Dr Hatem Soliman 4) High definition blood flow imaging in evaluation of left ventricular function - Dr Masood Ahmad	Echocardiography in HFPEF Chairpersons: Dr Satish Parashar, TBD 1) Simplified and practical diagnostic algorithms for HFPEF beyond 2016 guidelines Dr Satish Parashar 2) Demonstrating dyspnea Dr Abdullah Al Shafi Majumdar 3) Exercise echocardiography of left ventricular diastolic function Dr Francesco Ferrara(online) 4) HFPEF diagnostic challenge with therapeutic implications Dr Jaroslaw Kasprzak
09:35-10:35	Cardiac imaging in cardiomyopathies Chairpersons: Dr Thor Edvardsen, Dr Fatih Yalçın 1) Risk stratification of HCM - Dr Thor Edvardsen 2) Multimodality imaging in dilated CMP - Dr Begüm Uygur 3) Cardiac imaging in infiltrative (restrictive cardiomyopathies) - Dr Pankaj Arora 4) Multimodality imaging in cardiac amyloidosis Dr Ahmet Barutçu	Tricuspid valvular disease Chairpersons: Dr Erwan Donal, Dr Tuğba Kemalolu Öz 1) The role of 3D imaging in the evaluation of tricuspid valve Dr Tuğba Kemalolu Öz 2) Recent advances in the grading of tricuspid regurgitation Dr Erwan Donal 3) Assessment of RV function in patients with severe TR Dr Denisa Muraru (recorded lecture) 4) Assessment of prosthetic tricuspid valve Dr Madhavi Kadiyala
10:35-10:50	Coffee Break	Coffee Break
10:50-11:50	Opening Session / Opening Lecture with Award Ceremony	Opening Session / Opening Lecture with Award Ceremony
12:00-13:00	Industry Lunch Symposium (Siemens) AI enhanced 4D heart imaging	Industry Lunch Symposium
13:10-14:10	Cardiac imaging in ischemic heart disease Chairpersons: Dr Arnold Pasia, Dr Jaroslaw Kasprzak 1) Current status of stress echocardiography Dr Özlem Esen 2) Predicting exercise echo-Doppler mPAP/CO slope: The RIGHT-NET Machine learning model Dr Francesco Ferrara(online) 3) Immediate diagnosis of post MI complications with bedside echo Dr Hanumanth Reddy 4) Assessment of mitral regurgitation in ischemic heart disease - Dr Arnold Pasia	Cardiovascular imaging in endocarditis Chairpersons: Dr Domenico Galzarano, Dr Fahriye Vatansever Ağca 1) The role of echo in endocarditis based on ESC guidelines 2023 Dr Majo Joseph 2) Three D echo: a missing link in infective endocarditis Dr Domenico Galzarano 3) Percutaneous mechanical vegetation aspiration or injection/drug use endocarditis Dr Evin Yücel 4) Value of CT and PET imaging in endocarditis Dr Ayaz Aghayev
14:15-15:15	Clinical Cases Chairpersons: Dr Fikret İlgenli, Dr Mehmet Uzun 1) Three chambered heart-single atrium/spide cell sarcoma of the pulmonary artery in a child - Dr Amurag Tomar 2) Unmasking the unusual ALCAPA in the adult /Masquarading hydatic cyst in RVOT Dr Ashok Gang 3) Dr Özlem Esen 4) Dr Rohit Tandon	Joint session with GSOC Chairpersons: Dr Thomas Binder, Krassimira Hristova 1) From head to toe: Ultrasound clues from outside the heart Dr Thomas Binder 2) Innovative imaging approaches in cardiooncology: Predicting the heart during cancer treatment Dr Abdullah Almaghraby 3) Navigating the uncharted: Complex cases of endocarditis and valve dysfunction Dr Alex Felix 4) Personalize approaches to tricuspid valve disease: Tailoring treatments for better outcomes Dr Edoardo Zancanaro
15:15-15:30	Coffee Break	Coffee Break
15:30-16:30	Multimodality Cardiac imaging in pericardial disease Chairpersons: Dr Heba Wassif- 1) Expanded strain reverses in constrictive pericarditis Dr JC Mohan 2) LV geometry in constrictive pericarditis - Dr Madhu Shukla 3) Image guided therapies in pericardial disease Dr Heba Wassif 4) TBD	Cardiac imaging in right heart Chairpersons: Dr Olga Vriz, TBD 1) The role of echocardiography in pulmonary embolism Dr Tahir Tak 2) Imaging of right heart Dr Garima Aurora 3) The assessment of Pulmonary hypertension by echo cardiography Dr Serdar Kucukoglu 4) Pulmonary valve assessment beyond guidelines Dr Tuğba Kemalolu Oz
16:35-17:35	Touch of AI in cardiovascular imaging Chairpersons: Dr Navin Nanda, Dr Nurgül Keser 1) A quick glimpse at AI in Cardiology - Dr Nurgül Keser 2) AI and ECG - Dr Rajeev Gupta 3) TALE-HFPEF study - Dr Arda Guler 4) AI based AF ablation - Dr Serdar Bozyel	Heart failure and echocardiography in 2025 Chairpersons: Dr Shantanu Sengupta, Dr Özlem Esen 1) How can a complete echo provide diagnostic, prognostic and therapeutic value in 2025 Dr Rakesh Gupta 2) Accurate real time noninvasive hemodynamic assessment of patients with heart failure with hypertension Dr Zvi Vered (online) 3) Myocardial work index interesting cases Dr Shantanu Sengupta 4) Differentiating ischemic vs nonischemic CMP Dr Silvana Jojonova
31 May 2025, Saturday		
TIME	HALL A	HALL B
08:30-09:30	Mitral Valvular Disease Chairpersons: Dr Madhavi Kadiyala, Dr Satish Parashar 1) Assessment of mitral stenosis - Dr Jayshri Aragam 2) Comparison of common echo techniques to quantify MR - Dr Satish Parashar 3) Arrhythmic MVP or Atrial functional MR - Dr Jeffrey Silbiger (online) 4) Assessment of prosthetic mitral valve - Dr Madhavi Kadiyala	Echocardiography in Adult Congenital Heart Disease Chairpersons: Dr Serdar Küçüköğlü, Dr Aarti Bhat 1) Imaging/follow-up for grown-up congenital heart disease (ESC guidelines) - Dr Orcaç Tüfekçioğlu 2) Long-term outcomes of congenital heart disease - Dr Aarti Bhat 3) Complex congenital cases: Practical tips - Dr Giovanni di Salvo 4) Adult congenital valvular interventions - Dr Sarah Moharem
09:35-10:35	Cardiovascular Imaging in Cancer Patients Chairpersons: Dr Orcaç Tüfekçioğlu, TBD 1) Cardiac imaging for cardiooncology .What are the current recommendations according to the 2022 ESC guidelines Dr Cafer Zorgun 2) GLS in the evaluation of cardiotoxicity during cancer therapy Dr Krassimira Hristova 3) RV cardiotoxicity in breast cancer patients during chemotherapy, Dr Nilda Espinosa-Zavelata 4) Cardiac imaging in radiotherapy associated cardiotoxicity Dr Sibel Çatırlı Enar	Cardiac Imaging in Pediatric Population Chairpersons: Dr Shelby Kutty-Dr Ayşe Şimşek 1) Fetal and neonatal echocardiographic assessment of tetralogy of Fallot/fetal and neonatal echo assessment of hypoplastic left heart syndrome Dr Rajesh Shenoy 2) Echo Automated Analysis and 3D printing in Adult Congenital Heart Disease Dr Shelby Kutty 3) Fetal and neonatal echocardiographic assessment of atrioventricular septal defect (AVSD) Dr Ayşe Şimşek 4) Cardiac imaging in Fontan (single ventricle): echo and CMR Dr Sezen Uçan Atık
10:35-10:50	Coffee Break	Coffee Break
10:50-11:50	Aortic Valvular Disease Chairpersons: Dr Hector Michelena, Dr Fabiola Sozzi 1) Advances in BAV diseases: Genetics, embryology, valvulo-aortopathy and clinical outcome Dr Hector Michelena 2) Paradox low flow low gradient aortic stenosis Dr Galal Elkilany 3) Concomitant aortic stenosis and HOCM Dr Shantanu Sengupta 4) Aortic insufficiency in young patient Dr Fabiola Sozzi	Siemens Workshop Usefulness and limitations of speckle tracking two dimensional and 3 dimensional transthoracic echocardiography
12:00-13:00	Industry Lunch Symposium	Industry Lunch Symposium
13:10-14:10	Joint Session with Turkish Society of Cardiology Chairpersons: Dr Muzaffer Değertekin, Dr İrem Dinçer 1) Detecting and managing a TAVI complication - Dr Bilge Karaduman 2) Imaging specialist's intervention in paravalvular leak - Dr Gamze Babur Güler 3) TEE superiority in ASD/PFO closure - Dr Münevver San 4) Enhancing mitral balloon valvuloplasty with TEE - Dr Menekşe Gerede Uludağ	Echocardiography in Special Populations Chairpersons: Dr Sibel Çatırlı Enar, Dr Reema Chugh 1) The role of echocardiography in detection of subclinical LV dysfunction in diabetic patients Dr Silvana Jovanova 2) The role of echocardiography in hypertension - Dr Sibel Catirli Enar 3) Top ten questions in the management of heart disease in pregnancy - Dr Reema Chugh(online) 4) Cardiac imaging in neurocardiology Dr Fatih Yalçın
14:15-15:15	Role of Imaging in Critical Care Unit Chairpersons: Dr Hatem Soliman-Aboumarie, Dr Thor Edvardsen 1) Pitfalls in critical care echo Dr Hatem Soliman-Aboumarie 2) FOCUS echocardiography - Dr Elif Sade 3) The role of echocardiography in prevention of sudden cardiac death - Dr Kanchi Muradhar 4) Echocardiography and Cardiac CT in LVAD Dr Valeria Pergola	Cardiac Imaging in Aortopathies Chairpersons: Dr Maurizio Campanello, Dr Mehmet Ertürk 1) Acute aortic syndromes Dr Andreina Carbone 2) Moderately dilated descending aorta with BAV: what to do? Dr Hector Michelena 3) Imaging for lipid lowering in valvular heart disease or osteocardiology Dr Nalini Rajmanna (online) 4) Preclinical detection of vulnerable plaque Dr Maurizio Campanello
15:15-15:30	Coffee Break	Coffee Break
15:30-16:30	Joint Session with CardioAlex Chairpersons: Dr Eman Elsharkawy, Dr Navin C Nanda 1) Think Beyond Common - Dr Rasha Abayazied 2) Challenges in MitraClip: To TEER or Not to TEER? - Dr Hoda Shehata 3) Is This Really Endocarditis? - Dr Abdallah Almaghraby 4) What is Wrong With The Left Ventricle? - Dr Mohamed Ayman Abdel-Hay	3D Echocardiography Chair persons :Dr Bahadır Dağdeviren-Dr Vito Maurizio Parato 1) 3D Echo use in cath lab Dr Bahadır Dağdeviren 2) Evaluation of three dimensional transesophageal echocardiography in rheumatic aggression Dr Roberto Baldonato Arellano 3) 3D Echo of cardioembolism - Dr Vito Maurizio Parato 4) Left ventricular Efficiency by 3D echocardiography: Validation and ability to predict long-term survival in cardiac resynchronization therapy Dr Lars Egil Reine Hammersbeen
16:35-17:35	Strain Imaging Chairpersons: Dr Ravindra Bhardwaj, Dr Gamze Babür Güler 1) Principles of strain imaging and its clinical relevance - Dr Fulya Avcı Demir 2) LV strain in thick walls - Dr Beck Perry 3) Right Ventricular strain assessment in pulmonary thromboembolism - Dr Ravindra Bhardwaj 4) TBD	Echo Jeopardy Dr Mahi Ashwath
1 June 2025, Sunday		
TIME	HALL A	HALL B

	<p>The Role of AI in Echocardiography Chairpersons: Dr Galal Elkilany, Dr Nurgül Keser 1) AI in cardiac imaging among high-risk populations - Dr Galal Elkilany 2) Artificial intelligence in cardiac imaging evolution or revolution - Bernard Mumm (online) 3) Telehealth and point-of-care ultrasound - Dr Tank Kivrak 4) Fully digitized echo labs and smart hospitals - Dr Duygu Kocyiğit Burunkaya</p>	<p>Imaging Left Atrium Chairpersons: Dr Elif Sade, TBD 1)The importance of LA strain Dr Marie Stugaard 2)Progression of atrial myopathy to atrial fibrillation as a disease continuum Dr Hamed Oemar 3)Left atrial strain in the algorithm of diastolic dysfunction Dr Elif Sade 4) Interatrial septum imaging Dr Fahriye Vatansever</p>
08:30 - 09:30	<p>Chairpersons :TBD 1)The role of imaging in transcatheter mitral valve interventions TBD 2) Mitral-TEER in FMR patients Dr Konstantinos Papadopoulos 3)The role of imaging in transcatheter tricuspid valve interventions Dr Evin Yücel 4) The role of imaging in transcatheter aortic valve interventions</p>	<p>CMR Session Chairpersons: Dr Nilda Espinosa-Zavelata, Dr Özge Özden 1)Cardiac MRI in the evaluation of ischemia Dr Juan Urquiaga C 2)Role of CMR in right ventricular myocardial infarction Dr Nilda Espinosa-Zavelata 3)Cardiac mass evaluation by CMR Dr Begüm Uygur 4)Role of CMR in valvular heart disease Dr Özge Özden</p>
09:35- 10:35		
10:35- 10:50	Coffee Break	Coffee Break
10:50 -11:50	Closing Ceremony (Abstract Awards & Special Lecture)	Closing Ceremony (Abstract Awards & Special Lecture)
